

▶ 变性淀粉智能解决方案 广泛应用于现代工业众多领域

Modified Starch Solutions

Widely used in many fields of modern industry

- ▶ **产品介绍：**变性淀粉生产线是通过拌粉-挤压膨化-干燥-粉碎等工艺生产出多元化的变性淀粉系列产品，广泛应用于石油钻井、制造纺织、化工建材、工业造纸、食品加工等领域。
- ▶ **产品种类：**变性淀粉。
- ▶ **生产能力：**MTN-70 Extruder machine 100-150kg/h, MTN-85 Extruder machine 200-300kg/h, MTN-100 Extruder machine 600-700kg/h, MTN-135 Extruder machine 1-1.5t/h

- ▶ **Product Introduction:** Modified starch production line is through mixing powder - extrusion - drying - grinding and other processes to produce diversified modified starch series products, widely used in oil drilling manufacturing textile, chemical building materials, industrial paper, food processing and other fields.
- ▶ **Product Category:** Modified starch.
- ▶ **Production Capacity:** MTN-70 Extruder machine 100-150kg/h, MTN-85 Extruder machine 200-300kg/h, MTN-100 Extruder machine 600-700kg/h, MTN-135 Extruder machine 1-1.5t/h
